Harvey

July 3, 2007

Yesterday we laid off [REDACTED], Director of the [REDACTED]. This action was taken because I felt, along with others, that we needed someone in this position with an academic background.

Today, I contacted Dan Eaton to let him know of my decision as I didn't want him to hear it from someone else. He was absolutely livid. He said our system had been making stupid decisions for years, but that this was the stupidest decision of all. He ranted on about how hard she works and what a great job she was doing. He then proceeded to say the real issue in Keene was [REDACTED] and that she was incompetent, etc. and etc.

Before hanging up he said he would go on a vendetta against the NHCTC System and that he would get even..

Harvey Hill, Interim President
